

Rustic Living

A RUSTIC HOME IN WESTERN SHAWNEE, KS. IS THE CULMINATION OF A DECADE OF DESIGN

Stepping out their backdoor onto 14 acres of wooded, hilly land, Larry and Donna McCullough have a picturesque view. Their house, a high country-style ranch built by Larry and designed by architect David Dussair of Design Build Team, sits high upon a bluff to give them a gorgeous view of the Kansas River Valley.

“ I’m from
Colorado originally.
We wanted a mountain-
type home with a lodge
feel to it.”

~ Larry McCullough

Typical of a mountain retreat, the Shawnee, KS. homeowner made extensive use of pine, rustic timbers and Colorado river stone. Exposed load bearing trusts help keep the expansive ceilings in perspective.
